

A large yellow mobile crane is shown in the process of lifting a massive white wind turbine nacelle. The crane's lattice boom extends high into a bright blue sky with scattered white clouds. The nacelle is suspended by cables and is being hoisted towards the top left of the frame. The crane is mounted on a yellow truck chassis with multiple axles, parked on a dirt or gravel surface. The background features rugged, rocky mountains under a clear sky. The crane has 'wälti-furrer' and 'TEREX' branding visible on its body.

*Mobilkrane.* Im Auftrag der deutschen Enercon GmbH errichtete der Krandienstleister Wälti-Furrer Pneukran & Spezialtransporte AG in der Nähe des Griess-Sees an der schweizerisch-italienischen Grenze in 2465 m Höhe eine Windkraftanlage vom Typ Enercon E-70 mit einer 2,3-MW-Turbine.
